24 Spadina Road, Toronto, ON M5R 2R7

## INNOVATION AT THE

**Talk in English by  
Brendan Dellandrea  
Marketing & Communications Director**

Created in 2009 for the valorization of the digital media of Ryerson University, the DMZ very quickly evolved into Canada's largest multidisciplinary incubator, enabling entrepreneurs from Toronto and all around the world to develop their businesses.

Examples of success stories count *Bionik Laboratories*, the bioengineering R&D company, or *Komodo OpenLab*, which develops technologies facilitating the access to mobile devices for people with disabilities.
